WORK EXPERIENCE

Mr Apps - Front-end Developer

Apr2024 - Feb2025

Developed responsive web applications using React and integrated REST APIs using Axios for seamless backend connectivity

PROJECTS

ShamSuperStore

E-commerce store for groceries and goods (Multi-vendor website) with individual dashboard with 5 roles : admin and seller and delivery driver and admin delivery driver and user (buyer) here is the dashboard link <https://shamsuperstore-dashboard.com/>

Marasil :

Built a responsive web app using React and Axios for state management. Developed client and admin dashboards for managing and tracking shipments. The project targets Saudi e-commerce businesses and individuals.

Al Aseel Sweets :

Designed and developed a responsive website with a functional dashboard for managing products and orders.

Devign Creatives :

Devign Creatives is a modern software company specializing in web and mobile app development, as well as digital marketing services. The website showcases the company's services through a sleek, responsive design built with React, emphasizing creativity, performance, and user experience. It serves as both a portfolio and a point of contact for potential clients, including startups, small businesses, and enterprises.

Mirruba Jewelry :

Developed a modern, responsive website using React, with a user-friendly interface and RESTful API integration for seamless product management. Built an admin dashboard to manage listings, track orders, and monitor sales performance.
